Range - City**	661 km	661 km
Range - Combined***	529 km	529 km
Energy Consumption Wh/km - Combined	165.6	165.6
*The stated electric vehicle range has been calculated in compliance with the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) regulation which sets out standard test conditions and procedures applicable to car manufacturers. The stated electric vehicle range is for the purposes of comparison amongst vehicles tested under the same technical procedures only. The real range for your electric vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style.		
**WLTP City Range: Calculated on the basis of the vehicle's average performance during the "Low" and "Medium" phases of the WLTP test cycle which is intended to represent driving conditions exclusively in low and mid-speed urban and suburban conditions with frequent stopping and starting.		
***WLTP Combined Range: Calculated on the basis of the vehicle's average performance during all four phases of the WLTP test cycle, which is intended to represent city, rural and highway driving conditions.
